Total \$431.00

Clothing donations were made by the following: Mrs. G. Grant, Mrs. A. McLeay, Miss E. Bates, Mrs. W. Schnelle, Mrs. Pugh, Mrs. MacCallum, W. M. Pettit, Mrs. F. Michael, Mrs. J. Sammons, Mrs. Walters, Mrs. J. C. Kilcup.

MEMORIAL CARD

ROBINSON—In loving memory of Jackie who died June 6, 1944.

Sadly missed by Mother, Day and Family.

ARMDALE CHORUS

Twenty seven girls — including Mary Dee-Girrol, the leader (centre) — make up the Armdale Chorus, which broadcasts on Saturday nights.

The group is named after the suburb of Halifax—eleven years ago in a public school classroom—several of the present members first made music together.

News Items of Local Interest

Painters during the past week have brightened the town office doors and windows with a coat of white paint.

Dr G. H. Farquharson has taken up painting as a side line. His specialty is painting verandas.

A shower in honor of Miss Eileen Nelson was held last week by Mrs. I. Wilson and Miss A. Bell at the home of the former.

Mr. and Mrs. Ed. Menard and Mr. and Mrs. A. Sauve spent Sunday at Ensign visiting Mr. and Mrs. Mooney.

A crew of 18 men arrived in town last week to test the ground in this district for indications of oil. At the present time they are working in the area near Standard and are working south. They expect it will take several months to complete the work here. Counting the men and those who have their families with them they make a total of 3 people.

Some years ago Gleichen had a good organization of Boy Scouts, Girl Guides and Brownies but interest waned. At a meeting held last week at the Recreation Centre it was decided to reorganize and various organizations offered to assist to get the movement underway. The leaders appointed were Mrs. B. Burt for the Guides; Rev. W. Morrison, M.P., and Mrs. Chas. Hatton, Brownies. The committee includes R. Yates, chairman; Robt. Blick, secretary; Mrs. R. W. Brown vice-chairman; Mrs. C. Kilcup, Mrs. N. McMillan, Mrs. H. Bogatie and Chas. Hatton.

Funeral services for Chief Teddy Yellow Fly who was drowned in the Bow River at Calgary last week, was held in the Chapel of Old Sun School last Thursday afternoon at 2 o'clock with Rev. Cole officiating. There was a very large attendance of both Indians and white people. Whites from all over the country and former Gleichen people living in Calgary were present. Since Teddy was a veteran of the First Great War the veterans attended in a body. Interment was made in the family plot in the Indian cemetery south west of town.

The C.P.R. has a gang of some 50 men laying new steel rails between here and Cluny. The old rails were put down over 20 years ago and now show signs of wear such as flattening on the top. These old rails will be used on branch lines. The men lay new rails on one side of the track and lay about a mile a day. When they have completed one side of the tract in this section they will proceed to lay the other side. By doing one side at a time they do not delay trains very long. To remove the spikes holding down the old rails a machine is used to do the work.

Our old enemy the house fly will soon be with us again. He never fails to come around when the warm weather arrives. To annoy people and to cause trouble seems to be his special aim in life. From the baby's face to father's bald head, to the milk pitcher and to the food are some of his journeys well-known to all of us. Yet in spite of this, and possibly because he is seen too often, it is doubtful if many of us fully realize the danger and filthy ways of this common pest. The house fly lays her eggs, 120 a one time, in manure. She prefers it, but will use any heap of garbage or filth. With a very

short incubation, a period of two weeks, it can be seen how fast flies multiply unless they are controlled. Naturally the best way to control the fly is to destroy the eggs or maggots before their wings are developed and they can move about rapidly. Why is it necessary to destroy flies and keep them from hatching? All flies can carry disease germs, they are filthy in the extreme. The legs of flies are provided with a great many short hairs (100) or bristles and as the fly walks over filth containing disease germs, some of these are collected and held by the hairs. When the fly goes again to take a drink from the milk or touches food, some of the germs will be left behind in the milk or food. When these are swallowed later with the food by the baby or anyone else, they may cause much sickness.

ST. ANDREW'S CHURCH

Sunday, June 11th.
Morning Prayer at 11.30 o'clock.
Rev. D. Houghton, B. A., Incumbent.

Cluny High School Graduation Banquet

Last Friday evening a graduation ceremony was held in the Cluny Hall for some 15 graduating students. B. Dean one of the editors of the Calgary Herald was the guest speaker. The Students Union sponsored the banquet and dance.

Students from Chancellor, Hussar, Queenstown, Milo, Cluny and Gleichen attend the Bow Valley High School at Cluny.

Vernon Hoff was toastmaster with Father Mahieu in attendance. The address to the graduates was given by Mr. F. Betton the principal. A vocal solo was sung by Mrs. R. Collier, accompanied by Mr. Collier. Mrs. C. gave a piano solo.

Toasts were given as follows: to the school R. Koefoed response by R. Anderson; to the staff Winnifred Johnson response by Lester Inman; to the divisional board, Inez MacDonald, response by H. T. Colpoys, chairman; to the H.S.A., Allan Mathison, response by Mrs. S. Williams, president; to the parents, Kenneth Gordon, response by H. Johnson; to the dormitory, Dick Haskayne, response by Joe Sisko; to the board of trade, Ann Koefoed, response by E. L. Inman, president, to the graduates Elsie Jones, response by Dolores Guttrath, valedictorian.

Mrs. A. Derrick made presentations to the graduating class, including: Byria Morris, Dolores Guttrath, Adele Mason, Margaret Sisko, Gwen Koefoed, Nettie Seminoff, Frances Walter, Gordon Warner, Walter Seminoff, James Stewart Paul Reinholdt, Joe Barabast Dale Hunter, Edward Hong, George Christoffer-son.

Some people are allergic to sunshine.

Forerunner of the automobile was a sailing chariot, built with wheels for operation on land, in Holland in 1600.

Ever wonder how and why the bones of canned fish are soft? It is because in the canning process the fish is subjected to intense heat.

Boys usually outnumber girls in Swedish birth statistics.

Canadian mothers have given birth of six sets of quadruplets but the Dionnes still stand alone so far as quints are concerned.

Migration Miracle

(Continued from last week)

BY GEORGE MURRAY

(This is the first of a series of articles written for the Canadian Weekly Newspapers Association by the editor of the Pictou Advocate.)

They believed that the Baltic states would escape a second Soviet occupation if they managed to hold back the Russians until the armistice between the allies and Germany was signed. They could not possibly know that their countries had already been sacrificed to Russia at the Allied conferences and consequently they fought with great bravery and resolution.

Abandoned by the allies, all was in vain, and those who could fled to Germany and Sweden. In Germany they too are denied DP status, only those who were forcibly conscripted into the German forces being granted this privilege.

All other Baltic people who could fled before the soviet terror, their only hope now being in a push to the west where they hoped to connect western Allies.

Thus, with the slave laborers, they were liberated and classified as DPs, and will in no circumstances, return behind the iron curtain.

The story of the Ukrainians is similar. Having suffered bolshevist doctrines for 20 ears, the German occupation gave them the opportunity for escape, that and their forcible deportation by the Germans. They, too, will not return.

The Yugoslavs are mostly royalists and no lovers of the particular brand of communism favored by Tito. Repatriation for them is also out.

The remainder of the DP population is made up of Poles who came largely from that part of Poland which was occupied by the soviets from 1939 to 1941 and slave laborers from all parts of Poland; by Hungarians, Czechs, Rumanians, Bulgarians and many stateless people from eastern Europe. None will return as long as the Russians continue to wall in their countries against the progressive west.

Aboard USATT General J. H. McRae.—This United States Army Transport, one of 36 ships chartered by the International Refugee Organizations bound for Bremerhaven, Germany, to take on another thousand or more displaced persons to be resettled in the United States.

Listening to IRO officials and others, I have learned more about the migration miracle.

One interesting source of information is J. A. Swettenham of the British Foreign Office, attached to the Maintenance Branch, Land Commissioner's Office, Hanover. This former major of the Royal Engineers spent four years with the Control Commission for Germany. He is returning to his post after having arranged for publication in New York of a book entitled "The Case for D.P.s."

Mr. Swettenham described the problem of assisting about 1,500,000 displaced persons who refused to go back behind the iron curtain.

What was done with these people? They could not be returned forcibly against their will, and it was soon realized that the only solution to the problem lay in resettlement, that is migration to other countries where in the fulness of time they could become naturalized citizens of such countries as the United States, Canada, Great Britain, Australia, Western European countries, and in the (Continued on last page.)

"...AND THAT'S HOW

we built the school"

It's the biggest contract I ever went after, so I lost no time in getting over to my bank manager.

"George," I said, "I'll need some help to handle a job this size."

We went over the whole thing, discussed how much I would need. When I landed the contract he gave me a line of credit and I was able to go right ahead. Now the school's as good as built.

It is an everyday part of your local bank manager's job to provide short-term credit—so that payrolls can be met, material bought, goods produced and marketed.

Education In Australia

INTERESTING REPORTS have come from Australia recently regarding the progress of education in that country. A young nation like Canada, it has likewise been populated by many people who went there hoping for greater opportunities for themselves and for their children. Out of this desire for equal advantages for everyone, they have built up a fine educational system which places emphasis on the use of the natural resources of the country and the development of native culture. In addition to its primary and secondary school systems, Australia has a national university, established by the federal government. Now, through the establishment of a number of substantial scholarships students are being encouraged to undertake higher studies, in order to provide the country with greater numbers of highly trained minds.

Awards Begin In January

Mr. G. N. Menzies, the Prime Minister of Australia announced a short time ago that, commencing next January, 3,000 university scholarships will be made available each year and will be distributed among the states on the basis of population. The value of these scholarships will depend upon the individual circumstances of the students, and the largest ones to be awarded will amount to approximately \$600. Some scholarships will be available to older students and special grants will be given to those who are married. Three years from now it is expected that some 9,000 students will be receiving benefits from this plan and the annual cost to the government will be about \$7,000,000. If Canada were to inaugurate a similar scheme it is estimated that the proportionate figures would be 9,000 students, and the cost \$12,500,000.

Project Is Of Interest Here

In view of the extensive plan which was undertaken in Canada to provide assistance for veterans attending universities, the project in Australia is of interest here. In the academic year 1947-48 over 30,000 veteran students were receiving assistance under the Veterans Rehabilitation Act. The success of the students who attended universities under the provisions of this act has given rise to speculation as to the advisability of making a permanent plan to provide financial assistance for able students wishing to continue their studies. Australia has apparently seen the need for greater numbers of citizens with professional training and is endeavouring to meet this need, and many Canadians will be interested in the progress of this plan to encourage university education there.

ODDS FAVOR QUINTS REACHING 50th BIRTHDAY

NEW YORK.—Chances are two in three that the Dionne quintuplets will live to celebrate their 50th birthday together, Metropolitan Life Insurance Co. statisticians reported.

The five famous girls were 16 on May 28. The calculators figured the quintts have 97 in 100 chances of living to be 21 and 27 in 100 chances of reaching 65 together.

The statisticians said the estimates were conservative. They pointed out the figures were based on the average survivorship for girls in the general Canadian population and added that since the Dionne girls have special care their prospects for beating the average are "excellent".

You can't drift into success.

TRAFFIC INCREASE IF ALASKA HIGHWAY PAVED

EDMONTON. — Traffic over the Alaska highway would increase if the Canadian section was paved, Dr. Ernest Gruening, governor of Alaska, said in an interview. "I guess people in the U.S. are used to riding on pavement," he said as he reported his country was paving 600 to 700 miles of the highway in Alaska.

CHANGED HIS MIND
WINDSOR, Ont.—A nine-year-old boy sat on the railroad here and defied an approaching train. He calmly sat on a rail and beckoned the engineer, who frantically applied the brakes, to "come on". Then as the train halted he ran away.

NOT NEW
Radiant heating is not news. The Romans some two thousand years ago circulated heated air beneath floors to give a warm surface.

Nature Paints New Face On Earth

Trees and flowers are bursting into bloom in parts of Canada from Okanagan to Annapolis Valley. Cold spring weather has retarded flowering for an average of two weeks. Thousands of visitors are touring the countryside, fascinated by the beauty and fragrance of the fruit and flower blossoms.—Central Press Canadian.

Federal Aid For Alberta Hospitals

OTTAWA.—Federal grants totaling more than \$155,800 have been approved to aid four Alberta hospitals to increase their accommodation, the Health Department announced.

They are the Provincial Mental Hospital, Ponoka; the Provincial Training School, Red Deer; the Provincial Mental Institute, Oliver and the Bentley Municipal Hospital.

B.C. RESIDENT

Makes 1,000-Mile Trip To Get Sawmill Belts Spliced

STURGIS, Sask.—Fred Tymrick, of Arrowhead, B.C., motored 1,200 miles to Sturgis recently, to have five sawmill belts spliced here by William Hrushka, local harness and shoemaker.

Mr. Tymrick's trip to get the belts spliced took him to Vancouver, Revelstoke, Nelson and Calgary, with negative result. He phoned Mr. Hrushka, who informed him that he would do the job.

Mr. Tymrick left Sturgis for Arrowhead, with the five spliced belts.

FUNNY And OTHERWISE

The Play Boy—What's your favorite musical instrument?
Chorus Girl—The Cash Register.

New Assistant: "I sent a sprig of mint with Mrs. Brown's lamb, sir."

Butcher: "Well, you'd better send a sprig of forget-me-not with her bill."

Teacher: "Yes, Johnny—what is it?"

Johnny: "I don't want to scare you, teacher, but Pop says if I don't get better grades, someone is going to get a licking."

"Is the boss in?"

"No; he's gone out for lunch."

"Will he be in after lunch?"

"No; that's what he's gone out for."

He: "I'd get down on my knees and die for you."

She: "Would you stand on your feet and work for me?"

Good wives, like flowers, bloom here and there. Bad wives, like weeds, grow everywhere.

Who was it said: One reason why fathers worry about their sons is because they were once sons themselves?

"Should a man propose to a girl on his knees?"

"Either that or she should get off."

Wives are people who remind us Of the carefree lives they swapped

For the footsteps left behind us On the floors they've freshly mopped.

"Mother, dear, what was the name of that boy I met on holiday—the one I couldn't live without?"

No Moose Hunting In Alberta, 1950

Mysterious Migration Reason For Protection

EDMONTON. — There will be no moose hunting in Alberta this year, E. S. Huestis, provincial game commissioner, announced.

Mysterious migration of the large animals to southern foothills in the province where there is less protection against hunters is given as the reason for the ban. In other years the moose have inhabited the north bush country. The cause of the migration which has occurred in Alberta and British Columbia this year has not been solved by biologists and naturalists, according to game officials.

Mr. Huestis also stated that according to the order-in-council passed recently caribou hunting also will be banned this year. Poor wintering has caused a decrease in the herds, and it has been decided to give the animals sufficient time to increase.

The bag limits this year for other animals are one male mountain sheep, one male or female mountain goat, one either male deer or male elk, one grizzly bear and one black, brown or cinnamon bear.

Either one male or female elk can be taken in the Pincher Creek area, south of the Castle and Old Man Rivers and west of highway No. 2 between Macleod and Cowley.

The open seasons in the province

NEW RECORD IN CAR SALES SEEN

EDMONTON. — New car sales in Canada last year will hit a record mark of well over 300,000, S. S. Raffuse of Bridgewater, N.S., president of the federation of Automobile Dealer associations of Canada, said at the annual meeting of the northern Alberta branch.

are: Sept. 15 to Oct. 31 for sheep and goats; Nov. 1 to Dec. 15 for deer and elk, and Sept. 15 to Dec. 15 for bears.

Mr. Huestis also said that hunters applying to the department for special permits will be allowed to shoot deer or elk during the open seasons on sheep and goats in the Athabasca, Brazeau and Clearwater forest reserves. There is no change in the fees for hunting permits.

FIRST MUNICIPAL AIRPORT
Edmonton's civic airport built in 1926 was Canada's first municipal airport.

BRIER

Rich in flavour!

Every Sweet Tooth will love
SOUR CREAM BUNS

MADE WITH

It's such a thrill to make new yeast treats — now you haven't to worry about yeast that stales and weakens! Fleischmann's Yeast keeps full strength, fast-acting without refrigeration. Get a month's supply.

SOUR CREAM BUNS

Scald 1 1/2 c. milk, 1/2 c. granulated sugar, 2 tps. salt and 1/4 c. butter or margarine; cool to lukewarm. Meanwhile, measure into a large bowl 1/2 c. lukewarm water, 1 tsp. granulated sugar; stir until sugar is dissolved. Sprinkle with 1 envelope Fleischmann's Royal Fast Rising Dry Yeast. Let stand 10 minutes, THEN stir well.

Sieve 1/2 c. cold mashed potato and mix in 2 unbeaten egg yolks and 1/2 c. thick sour cream; stir into yeast mixture and stir in lukewarm milk mixture. Stir in 3 1/2 c. once-sifted bread flour; beat until smooth. Work in 3 c. (about) once-sifted bread flour to make a soft dough; grease top. Cover and set in a warm place, free from draught.

Let rise until doubled in bulk. Punch down dough, grease top, cover and again let rise until doubled in bulk. Punch down dough and turn out on lightly-floured board; roll to 1/4" thickness and cut into 3 1/4" rounds and place, well apart, on greased cookie sheets. Using a floured thumb, make a deep depression in the centre of each bun. Brush rounds of dough with mixture of 1 slightly-beaten egg white and 1 tbs. water; sprinkle generously with granulated sugar. Cover and let rise until doubled in bulk. Deepen depressions in buns and fill with thick raspberry jam. Bake in hot oven, 425°, about 15 minutes. Yield — 3 dozen large buns.

THE TILLERS

OUR COMPLETE SHORT STORY—

The Wager :: People Should Be More Careful.

By Charlotte McCarthy

"YOU'RE pretty sure of the guy, aren't you, Anne?" The speaker, a tall, blonde girl whose complete absence of expression took away all the charm of her flawless skin and perfect features, neatly skuffed out a cigarette.

"I am very sure of Joe," Anne wished Kay wouldn't talk like this. These last few months since she had agreed, against her better judgment, to let the girl share her apartment, there had been so many hints dropped, which, while they hadn't shaken her faith in Joe, had made her vaguely unhappy.

"If I had a fellow in another city, particularly one with wandering eyes like Joe, I'd be prepared for the worst." With an expressive shrug of her shoulders, she touched the brief flame of her lighter to a fresh cigarette.

"I wouldn't say that Joe was the type to fly, and you should know that, if you remember what happened the night I introduced you to him." There was a double meaning in Anne's remark that the other wasn't slow to sense.

"Oh, I try my luck with every man I meet. Finders keepers. You didn't expect him to show any interest in me, no matter how he felt, did you, with you in the picture? I thought you said he never missed a week writing to you. This is Saturday, and I haven't heard of you getting a letter."

"There'll be one. The postman hasn't called yet." Why did Kay try so hard to undermine her faith in Joe?

"Just for fun, Anne, I've got a five dollar bill that says there won't be a letter." Kay flipped the money from her purse and threw it on the table.

Anne caught her full lower lip between even white teeth. Joe might miss writing, even though there hadn't been a week since he'd gone away that she hadn't heard from him at least once. Five dollars meant nothing to Kay, whose father sent

her a generous check each month. Anne thought of her next-to-last pair of nylons drying in the bathroom, of the appointment with the dentist next week, and then, ashamed of her hesitation, she opened her bag, and drawing out the lone bill, smoothed it out on the table. "No letter from Joe today and this is yours, my friend," she said airily, with more confidence than she felt.

"What a town!" Lazily, Kay stretched a white arm above her head. "Nothing ever happens here."

"If you had to work as hard as I do, you wouldn't worry too much about it."

"Oh, work." Kay dismissed the subject as if she found it extremely distasteful. "Wait! There's the postman."

With maddening deliberation, the wiry little man in blue made his way down the street, and came up the walk to their building. It seemed an age before they heard him finish his work in the lower hall and the door swinging smartly closed behind him.

"I'll get it." Her heart pounding, Anne hurried down the stairs.

Her hand shook, as she fitted the tiny key in the lock. A brilliantly-colored circular, a postcard from a girl who was spending a week in Bermuda, a letter for Kay. And that was all.

Slowly, her face flaming, she walked back upstairs, and handed the letter to Kay.

"Who wins, Anne?" Anne averted her glance from the barely concealed triumph in the other's eyes. "It's all yours. But it is the first time that Joe . . ."

"There's always got to be a first time. You small-town girls amuse me, you still believe in Santa Claus." The long day stretched ahead. Maybe Kay was right. Perhaps she should be prepared for the worst. She didn't hear the heavy step on the stairs, until there was a sharp tap on the door.

"Everybody dead in there?" No mistaking that voice; it belonged to a woman who lived down the hall. "This here got put into my box by mistake. People should be more careful!" The door opened abruptly, and a plump white hand holding a thick envelope appeared.

With a suspicious moisture in her eyes, Anne took the letter.

"Count your money again, Kay," she said softly. "You're ten dollars short."

CANADIAN COAL

Alberta produces 50 per cent. of Canada's coal.

Dyke That Earned Place In History

The famed Norwood-St. Boniface dyke built by the rail and sweat of thousands of citizens, stood as a last barrier against the pressure of water when Winnipeg's flood was the highest.

Western Briefs

Riel Guard Dies

MAPLE CREEK, Sask.—Phil Williams, 84, veteran of the Northwest Mounted police, died here. Born in Toronto, Mr. Williams came west at the end of the Riel rebellion. He was detailed to guard Riel and was present at his hanging.

Motorcycle School

CALGARY.—A motorcycle school for R.C.M.P. traffic officers has been established here. Motorcycles used before the war to help regular control were dropped when gravel roads were found to be dangerous. The highways now have been hard-surfaced and it is felt the machines will again be useful in this area.

Heading North

EDMONTON.—Edmonton police were unable to catch one runaway when a cow defied repeated attempts at capture. When the cow was first reported wandering the streets two policemen rounded her up and placed her in the police garage. She disappeared through another door and was last seen heading north.

Women and Wood-Winds

WINNIPEG.—John Hemspeid, bassoon player with the Winnipeg Symphony Orchestra, says women and bassoons have similar temperaments. "Tell me what are the temperamental qualities of a woman," he says. "They are exactly applicable to the bassoon."

Shine For A Dime

YORKTON.—A new type of vending machine made an appearance on the street. It shines shoes for a dime. One brush applies wax and a second does the polishing. Bob Hart and Amos Border were seen trying to get a shine on one dime.

First Full Survey

EDMONTON.—A photographic survey of Alberta's entire 250,000 square miles is under way. The survey, to cost more than \$1,000,000, will provide valuable data, principally for the oil industry. Less than half the province has been accurately surveyed and mapped.

Five-Man Force

CRANBROOK, B.C.—Continuation of police protection for Cranbrook by provincial police was assured recently when the city renewed its contract. The detachment of a corporal and four constables will cost the city \$10,498 this year.

New Plant For Brandon

WINNIPEG.—Oshkosh Filter & Water Softener Co., Oshkosh, Wis., has incorporated a Canadian subsidiary to manufacture in Manitoba.

Oshkosh Filter & Softener (Canada) recently bought land in Brandon and is preparing plans for plant construction to start soon. Initial working force of about 15 will make water softeners, iron removal filters, neutralizers, taste and odor removal filters, sand filters and hydrogen ion exchangers.

Eight months later, company officials say, automatic electric water heaters will be added to the Canadian-made line. 2883

To Save Millions

Plan Rail Tunnels To Protect Tracks

VANCOUVER.—A plan to save the railways millions of dollars in British Columbia during years of floods and heavy snows is under consideration.

The Fraser canyon is the trouble spot for Canadian National railways, the tracks winding along the turbulent Fraser river. On the opposite side is the mainline of Canadian Pacific railway.

For years, the bad-weather season has meant isolation of coastal districts from the prairies because of snow or flood-swept lines. Last winter was the worst of the century.

President Donald Gordon of the C.N.R., despite his few months in office, has studied the situation. He summed it up:

"The trouble is the whole darned mountain comes down on top of us every high water."

He said millions of dollars have been spent for maintenance, but he wants to see a system where "we do not have to pay out the money year after year."

The job would cost from \$150,000,000 to \$175,000,000 and would take from 20 to 25 years to complete. It would mean the reconstruction of 42 miles of mainline through the toughest part of the canyon.

Mr. Gordon, here on an inspection trip, hastens to say it will not be started this year or next. But it is of high importance for the future. The plan, it is understood, calls

Milk Production Shows Increase In Alberta

EDMONTON.—Milk production in central and northern sections of Alberta continued to show substantial increases for the month of April, resulting in provincial increases of 11.7 per cent. in creamery butter and 9.7 in cheddar cheese manufactured, said the monthly report of the dairy branch.

For the first week of May butterfat receipts at creameries were below those for same week of 1949, and feed conditions may be a factor as well as the recent five-cent reduction in the floor price of butter, added the report.

April butter production in Alberta was 2,288,000 pounds, an increase of 239,000 over the 2,049,000 pounds made during April of last year. Cheese production for the month was 226,000 pounds, an increase of 20,000.

Butter stored at Edmonton on May 1 was 2,318,000 pounds.

COLORED SALT FOR SALE

TORONTO.—Red, green and yellow salt will go on sale soon in local groceries. William Biton and G. S. Roden, who sold the patent rights, said the colored salt was decorative on the table.

for a series of long tunnels over which snow and flood waters and rock slides would roar into the Fraser.

Freight traffic is a factor, the engineers say, in any plans for the future. The project will depend on how profitable freight traffic is in years to come.

The mail box was invented in 1810 by Thomas Brown, then governor of Florida.

Salada Tea Bags are handy for afternoon tea

"SALADA" TEA BAGS

for those who KNOW!

DESSERTS

Made with CANADA CORN STARCH

Blanc Mange

1/2 Cup Sugar 4 Cups Milk
6 Tablespoons Canada Corn Starch 1 1/2 Teaspoons
1/4 Teaspoon Salt Vanilla

Mix sugar, Canada Corn Starch and salt in top of double boiler. Gradually add milk, mixing until smooth. Place over boiling water and cook, stirring constantly, until mixture thickens. Cover and continue cooking 10 minutes longer, stirring occasionally. Remove from heat. Add vanilla; cool. Pour into moulds or serving dish and chill. Makes 6 to 8 servings.

Other variations including Floating Island, Chocolate Blanc Mange, Custard Blanc Mange and Pistachio Blanc Mange are included in Jane Ashley's Recipe Folder entitled "For Finer—Delicious Desserts".

They're Simple—and Simply Delicious with **MAGIC**

MAGIC RAISIN SCONES

Mix and sift into bowl, 1 1/2 c. once-sifted pastry flour (or 1 1/2 c. once-sifted hard-wheat flour), 3 tps. Magic Baking Powder, 1/2 tsp. salt. Cut in finely 4 lbs. chilled shortening and mix in 1/4 c. washed and dried raisins and 1/4 c. lightly-packed brown sugar. Combine 1 slightly-beaten egg, 1/4 c. milk and a few drops almond flavoring. Make a well in dry ingredients and add liquids; mix lightly with fork. Knead for 10 seconds on a lightly-floured board and pat out into greased pie plate (7 1/2" top inside measure) and mark into 6 pie-shaped wedges. Bake in hot oven, 425°, about 18 minutes. Serve hot with butter or margarine. Yield—6 scones.

HOWARD SMITH PAPER MILLS

Canada's Largest Manufacturer of Fine Papers

A brief yet complete story and financial summary of the affairs of Howard Smith Paper Mills Limited, Canada's great fine paper producer, appears in the May number of our "Investment Securities Review." It will interest shareholders and prospective investors and "traders" in this Company's securities. A copy will be sent on request.

"Investment Securities Review"

Free on Request

"Investment Securities Review" also contains approximate prices, with interest income, from all important Canadian Government, Municipal and Corporation Bonds, as well as prices and dividend yields from leading Public Utility and Industrial Preferred and common stocks, and those of mining and oil companies. Most useful for investors and "traders" as a comparative and ready reference. Write for a copy now.

NAME

STREET OR R.F.D.

POST OFFICE

HERE AND THERE

Born to Dr. and Mrs. Foster Ferguson a son on May 30 at Edmonton.

Mr. and Mrs. C. Voglian have taken up residence at the home of Mrs. W. McConnell.

The Board of Trade staged a trap shoot at the Gun Club site last Wednesday afternoon. There was not a very large turnout of local shots. About a dozen sportsmen came down from Calgary to enjoy the sport.

Mrs. A. Wilson, Mrs. G. McBean, Mrs. W. Somerville, Mrs. J. McArthur, Mrs. R. Haskayne and Mrs. R. McIntyre left the first part of this week for Lethbridge to attend the meeting of the Grand Chapter of the O.E.S.

Mrs. H. E. James had as visitors over the weekend her sons Ted of Beyon and Tom and his wife who are located north of Edmonton and Mr. Kim of Yellow Knife, N.W.T.

The Legion held a regular meeting one evening last week at which there was a large turnout. Three new members joined the organization. Committees were appointed to look after the various departments of the race meet to be held on June 21st.

The Legion boys have been busy of late getting the race track in condition for the race meet on June 21st. The track has been put in first class shape, fences moved and repaired and platform erected for the unloading and loading of horses on trucks.

(Continued from page 1)

MIGRATION MIRACLE

case of Jews Israel. These countries did not wake up to the fact all at once, and in the meantime the DPs still had to be supported.

To carry out this task, the Displaced Persons Division of the Control Persons Division of the army in the British zones of Germany and Austria in 1946, and in July 1947 the Preparatory Commission of the International Refugee Organization succeeded UNRRA. The PCIRO was in turn succeeded by IRO after 15 member nations and a firm subscription of 75 per cent of the operational budget had been found. It was not until August 1948 that these requirements had been fulfilled and IRO was firmly established, with its headquarters in Geneva and branch offices in Germany, Austria and Italy and many other parts of the world where DPs are likely to resettle.

You may ask, who pays for IRO? The answer is, you do, as a taxpayer of one of the member nations. And how is your money being spent? In early days, mostly in care and maintenance transport, provision of food, clothing, amenities accommodation stores such as beds, chairs, tables and blankets, in medical supplies and the upkeep of camps and buildings. Education had to go on, schools and even universities were

founded, and vocational training and agricultural schools were established. An unrelenting search through the International Tracing Service to find or determine the fate of millions of missing persons was conducted. And now, when resettlement is in full swing, your money helps maintain the world's largest mass civilian transportation fleet in history which carries more than 30,000 DPs monthly to overseas destination.

It was in 1947 that resettlement really began to get underway as by that time at least seven-eighths of the DPs who were found in Germany, Austria and Italy after the close of hostilities had returned home, and it was clear that no further large-scale repatriation movements could be expected. However, repatriation remained the top priority job of IRO and although no DU was forced to return to his homeland information about his country of origin furnished by the government of those countries was passed on to him to reach an independent decision. IRO was willing and able to provide repatriation services and transport to everyone who wished to return home. It still is.

National repatriation missions were allowed to visit the camps, even the Russians and in the beginning they could address massed gatherings. The camp inhabitants were so hostile to the Soviet representatives that later this was stopped, but they still had access to any part of the camp under supervision, and any person who expressed a wish to see the Russian officers was enabled to do so. But Ivan sat for hours after hour to no purpose. All kinds of ways were found by the DPs to annoy the Russians, from showers of rotten eggs to more subtle schemes. One little plan was to ask them to send greetings to Captain So and So (some prominent MVL official in, shall we say, Riga) whom they had known in 1940—he had always been so kind to them! They knew full well that this would be channelled back and that the unfortunate captain would have some very awkward questions to answer. Soviet literature was distributed in the camps, but usually found its way into garbage pails. Repatriation in general was a washout.

Resettlement now provided the outlet and the opportunity which the majority of the DPs were waiting for. Great Britain was one of the first nations to open its doors.

As early as October 1946, scheme "Balt Cygnets" was announced which provided for a hundred Baltic girls to work as domestic servants in British hospitals. From this modest beginning the scheme developed into the "Operation Westward Ho!" which between 1947 and 1949 had absorbed more than 82,000 persons.

(To be Continued)

The Ottawa Letter

BY SENATOR GERSHAW

In 1911 the Southern Alberta Land Company was formed for the purpose of bringing under irrigation about 200,000 acres of a 530,000 acre block. Much of this land was in a triangle formed by the confluence of the Bow and Old Man Rivers.

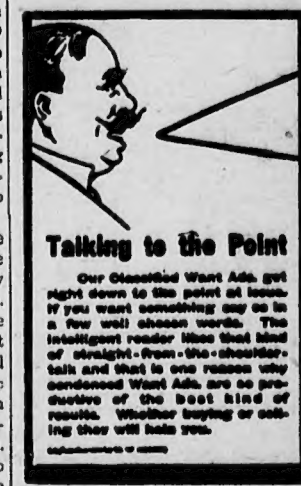

The water intake is on the Bow River near Carseland about 30 miles east of Calgary. The main canal from these runs south easterly to Lake MacGregor. From this large reservoir the canal runs to the Little Bow reservoir and from there to a point a few miles northeast of Medicine Hat.

Five districts were formed, namely Alberta, Western Central, Bungalo and Suffield. The settlement has been restricted to the first two as the others have never been completed.

The scheme is feasible and an adequate supply of water is available but until recently little progress was made on account of difficulties in getting an agreement among the parties concerned, the world wars and the depression with ruinously low prices for agricultural products. Water has been available for the Vauxhall area, at times with the government help but chiefly due to the vigorous management of Mr. D. W. Kays and those associated with him.

The Dominion government has purchased the assets of the private land company and unless something very unexpected happens and agreement will soon be completed between the Dominion and the province for the completion of this work.

The delays have been long and discouraging but success is in sight. Experience has shown that moisture from the sky cannot be depended upon and that private capital is not available for initial irrigation costs. Credit is due to ministers of the crown of the dominion and the province and people of the city and district appreciate the efforts they and their officers are putting forth.

Talking to the Point
Our Classified Want Ads. get right down to the point at issue. If you want something say so in a few well chosen words. The intelligent reader knows that kind of straight-from-the-shoulder talk and that is one reason why our Classified Want Ads are so productive of the best kind of results. Whether buying or selling they will help you.

CLASSIFIED ADS

HOUSE FOR SALE—Two story house in Gleichen. Apply to Mrs. W. McConnell, 601 7th Street West, Calgary. 14

TENDERS FOR COAL
(Western Provinces)
SEALED Tenders addressed to the undersigned and endorsed "Tender for Coal for Western Provinces" will be received until 8.00 P.M. (E.D.S.T.), Thursday, June 8, 1950 for the supply of coal for the Dominion Buildings and Experimental Farms and Stations throughout the Provinces of Manitoba, Saskatchewan, Alberta and British Columbia.

Forms of tender with specifications and conditions attached can be obtained from the Purchasing Agent Department of Public Works, Ottawa; the District Resident Architect, Winnipeg, Man.; the District Resident Architect, Saskatoon, Sask.; the District Resident Architect, Calgary, Alta.; and the District Resident Architect, Victoria, B. C.

Tenders should be made on the forms supplied by the Department and in accordance with the departmental specifications and conditions attached thereto. Coal dealers' license numbers must be given when tendering.

The Department reserves the right to demand from any successful tenderer, before awarding the order a security deposit in the form of a certified cheque on a chartered bank in Canada, made payable to the order of the Honorable the Minister of Public Works, equal to 10 percent of the amount of the tender, or Bearer Bonds of the Dominion of Canada or of the Canadian National Railway Company and its constituent companies unconditionally guaranteed as to principal and interest by the Dominion of Canada, or the aforementioned bonds and a certified cheque, if required to make up an odd amount.

By order,
ROBERT FORTIER,
Acting Secretary,
Department of Public Works,
Ottawa, May 15, 1950.

Wildcats are risky

To an oil man a "wildcat" is a well drilled in an area where oil has never been found. Drilling a wildcat is a risky undertaking and a costly one. Some wells have cost more than a million dollars—and have not been successful.

But that reason oil men make as certain as they can, before drilling, that there is a good chance of finding oil. They use the most modern instruments and skills to locate each drilling site; but still the odds are 20 to one against them. Only about one wildcat in 20 becomes a producer.

Over the past 30 years oil men have worked continuously against these odds. In western Canada Imperial alone drilled 134 wells—all dry—before the Leduc field was discovered in 1947.

But the end result has been new oil for Canada and benefits for Canadians. There are thousands of new jobs. Millions of U.S. dollars are being saved as the need for imported oil lessens. And, as another natural resource moves towards full development, the Canadian standard of living climbs higher.

These are real benefits to Canadians and they will increase as more oil is found. But to find more oil and to spread the advantages it brings, oil men must continue to work against long odds.

Sometimes a job that must be done can't be done without great risks.

Bringing you oil is a big job

...and a costly one
